

## **Henry J Duff Libin Cardiovascular Institute Mentor of the Year Award**

### **Terms of Reference**

This award is for a great research mentor, clinical research and/or basic science, in the Libin Cardiovascular Institute (LCI) at the University of Calgary. The award is named after Henry J Duff MD, a cardiologist, a long-standing member of Libin, and a pre-eminent scientist in cardiac cellular electrophysiology.

The recipient of the award can be a basic scientist and/or clinician scientist providing research mentorship. Nominees of any academic rank are eligible

### **Frequency of Award**

The award can be awarded up to once per year. If there are no suitable nominees in a particular year, then the award need not be awarded. Under exceptional circumstances, there can be more than one winner in a given year.

### **Award**

Each recipient will be awarded a small plaque in recognition of receiving this award. The award will be announced at presented at the Annual Libin Graduation and Awards dinner that takes place in June of each year.

In addition, there will be a larger plaque that is mounted on a wall somewhere in the Libin Cardiovascular Institute footprint that will have engraved on it the names of the winner(s) each year.

### **Nominations**

The nominations can come from faculty, students and staff of the Libin Cardiovascular Institute. Self-nominations are allowed. The same person cannot win the award within 3 years of previously winning this award.

### **Review and Selection Process**

This award will come under the responsibilities of the Research Committee, led by the LCI Director of Research. The LCI Director of Research will strike a committee including at least 3 members of the LCI to review the nominations and select a winner(s).
